ITA Cluster nasce ispirandosi alla palladiana veneziana tradizionale formata da scaglie di marmi pregiati, tra cui il marmo di Carrara. Un prodotto che rientra in uno di quei macro trends che ancora possiamo affermare stia vivendo un'onda lunga: il terrazzo. Innovativo è sicuramente l'aspetto grafico: le forme delle tessere solitamente "spigolose" si fanno più organiche, diventano ciottoli che vanno a posizionarsi in maniera casuale sulla base conferendogli un aspetto estetico più contemporaneo.

La collezione, sviluppata nei formati 120x120 e 60x120, si compone di quattro toni cromatici abbinabili ai 13 colori del progetto Micro, che esplorano la gamma dei neutri partendo dal White per arrivare fino al Graphite.

ENG Cluster was inspired by the traditional Venetian Palladian tile made of fragments of precious marble, including Carrara marble. A product that is part of one of those macro trends that we can still affirm are experiencing a long wave: the terrazzo. The graphic aspect is certainly innovative: the shapes of the usually "angular" tiles become more organic, they become pebbles that are positioned randomly on the base layer, giving it a more contemporary aesthetic appearance. The collection, available in the 120x120 and 60x120 sizes is made up of four chromatic shades that can be combined with the 13 colors of the Micro project that explore the range of neutrals starting from White to reach Graphite.
