<b>NEMESIS</b>					

<b>IT</b> _ NEMESIS è una nuova collezione realizzata con pannelli rivestiti in "SMART_HPL" di varie dimensioni. "SMART_HPL" è un materiale di ultima generazione, creato da un insieme di fogli in fibra di cellulosa, pre-impregnati con resine polimeriche, pressati ad alte temperature che vanno a termoindurire e quindi a sigillare i pori del foglio. Questi processi rendono la superficie oltre che piacevole al tatto, resistente al contatto con l'acqua e al calore, antiruggi e repellente alle impronte, risultando facile da pulire. Antistatico, stabile alla luce e antibatterico, anche queste peculiarità associate alla sua funzione tecnica, ne fanno un materiale di indubbio pregio e perfetto per l'applicazione nella nuova collezione NEMESIS adatta ad ogni ambiente abitativo.	<b>EN</b> _ NEMESIS is a new collection made of panels clad in "SMART_HPL" of various sizes. "SMART_HPL" is a state-of-the-art material created from a set of cellulose fiber sheets, pre-impregnated with polymer resins, pressed at high temperatures that go on to thermoset and thus seal the pores of the sheet. These processes make the surface not only pleasant to the touch, but also resistant to contact with water and heat, scratch, and fingerprint repellent, resulting in easy cleaning. Antistatic, light-stable, and antibacterial, these peculiarities associated with its technical function also make it a material of undoubted value and perfect for application in the new NEMESIS collection suitable for any living environment.	<b>DE</b> _ NEMESIS ist eine neue Kollektion von Paneelen, die mit "SMART_HPL" in verschiedenen Größen verkleidet sind. "SMART_HPL" ist ein Material der neuesten Generation, das aus einer Reihe von Zellulosefaser-Blätter besteht, die mit Polymerharzen vorimprägniert sind, die bei hohen Temperaturen gepresst werden, um die Poren des Blatts zu verfestigen und zu versiegeln. Diese Verfahren machen die Oberfläche nicht nur angenehm anzufassen, sondern auch widerstandsfähig gegen Wasser- und Wärmekontakt, kratz- und fingerabdruckabweisend und leicht zu reinigen. Antistatisch, lichtstabil und antibakteriell - diese Eigenschaften in Verbindung mit seiner technischen Funktion machen es zu einem zweifelloswertvoll und perfekt für den Einsatz in der neuen NEMESIS-Kollektion, die für jedes Wohnumfeld geeignet ist.	<b>FR</b> _ NEMESIS est une nouvelle collection composée de panneaux revêtus de « SMART_HPL » dans différentes dimensions. « SMART_HPL » est un matériau de dernière génération, créé à partir d'un ensemble de feuilles de fibres de cellulose, pré-imprégnées de résines polymères, pressées à haute température pour thermodurcir et sceller les pores de la feuille. Ces procédés rendent la surface non seulement agréable au toucher, mais aussi résistante au contact de l'eau, de la chaleur, aux rayures et aux empreintes de doigts et elle est facile à nettoyer. Antistatique, stable à la lumière et antibactérien, ces particularités combinées à sa fonction technique en font un matériau d'une valeur indéniable et parfait pour une application dans la nouvelle collection NEMESIS adaptée à tous les environnements de vie.	<b>ES</b> _ NEMESIS es una nueva colección realizada con paneles revestidos con «SMART_HPL» en varios tamaños. «SMART_HPL» es un material de última generación, creado a partir de un conjunto de láminas de fibra de celulosa, pre-impregnadas con resinas poliméricas, prensadas a altas temperaturas para termoendurecer y sellar así los poros de las láminas. Estos procesos hacen que la superficie no sólo sea agradable al tacto, sino también resistente al contacto con el agua y con el calor, antiarañazos y repelente a las huellas, fácil de limpiar. Antiestático, estable a la luz y antibacteriano, estas peculiaridades combinadas con su función técnica lo convierten en un material indudablemente valioso y perfecto para su aplicación en la nueva colección NEMESIS, adecuada para cualquier ambiente del hogar.	<b>RU</b> _ NEMESIS — это новая коллекция различных размеров, выполненная с использованием панелей, покрытых материалом "SMART_HPL". "SMART_HPL" — это материал нового поколения, созданный из листов целлюлозного волокна, предварительно пропитанных полимерными смолами и спрессованных при высоких температурах. В результате этого процесса происходит термопротивное затвердевание, что позволяет запечатать поры материала. Эти процессы делают поверхность не только приятной на ощупь, но и устойчивой к воздействию воды и тепла, устойчивой к царапинам и отпечаткам пальцев, что облегчает ее очистку. Антистатичный, светостойкий и обладающий антибактериальными свойствами — эти особенности, наряду с его техническими характеристиками, делают материал безусловно высококачественным и идеальным для использования в новой коллекции NEMESIS, которая подходит для любого жилого пространства.

**Nemesis** è la serie di contenitori e mobili bagno pensata per un pubblico giovane attento ai dettagli e al design contemporaneo, un target che identifica in antoniolupi un brand di riferimento in grado di anticipare le tendenze del settore, ma anche un interlocutore attento ai costi che grazie a questa collezione riesce a dar vita a un'area lavabo di design a un prezzo giusto. Una collezione flessibile e personalizzabile, sia nelle dimensioni con una lunghezza minima di 54 cm fino a raggiungere i 216 cm per grandi ambienti, sia nei colori, con cinque tinte unite scelte tra nuance neutre e calde e tre finiture legno per la struttura. Le ante possono invece essere richieste in tutti i colori della cartella antoniolupi. Tre anche le altezze, 25, 37.5 e 50 cm e un'unica profondità di 47 cm per una serie realizzata interamente con pannelli SMART\_HPL che dialoga instaurando una relazione virtuosa con lavabi e bacinelle da appoggio e specchi di diversa geometria.

Il costante controllo della qualità e dei processi, il know how di tecnici e artigiani permette di assicurare un risultato eccellente e costante sia sotto l'aspetto della continuità estetica, sia per quanto riguarda le prestazioni e la durata nel tempo. Anche grazie al nuovo materiale utilizzato, la collezione **Nemesis** si fa interprete di un design democratico che non rinuncia alla qualità e all'eccellenza, testimone di una bellezza senza tempo, definita da un segno rigoroso ma allo stesso tempo elegante, da leggerezza e pulizia grazie a segni nitidi e spessori sottili, una proposta di equilibrio e personalità... come nello stile di antoniolupi

# giovane nel dettaglio

**Nemesis** is the series of cabinets and bathroom furniture designed for a young audience attentive to details and contemporary design, a target that identifies in antoniolupi a brand of reference able to anticipate trends in the sector, but also a cost-conscious partner that thanks to this collection can give life to design at a fair price.

A flexible and customizable collection, both in size with a minimum length of 54 cm up to 216 cm, and in colors, with five solid colors chosen from neutral and warm nuances and three wood finishes for the structure. The doors, on the other hand, can be requested in all colors from the antoniolupi color chart. There are also three heights, 25, 37.5 and 50 cm and a single depth of 47 cm for a series made entirely with SMART\_HPL panels that dialogues by establishing a virtuous relationship with countertop sinks and bowls and mirrors of different geometries.

The constant control of quality and processes, the know-how of technicians and craftsmen enables us to ensure an excellent and consistent result both in terms of aesthetic continuity, performance, and durability. Also, thanks to the new material used, the **Nemesis** collection becomes the interpreter of a democratic design that does not sacrifice quality and excellence, the witness of a timeless beauty, defined by a rigorous but at the same time elegant sign, by lightness and cleanliness thanks to sharp lines and subtle thicknesses, a proposal of balance and personality...as in antoniolupi's style.

Compatto nelle dimensioni più contenute, allungato e slanciato quando la lunghezza si estende, in entrambi i casi leggero, equilibrato, democratico. Nelle intenzioni del progetto e nell'espressione finale, nell'esclusività del fatto a mano, nella scelta dei materiali, nell'artigianalità dei dettagli che incontra il giusto valore sul mercato. Una composizione personalizzabile, che parte da un monoblocco che gioca sul ritmo di piani accostati e perpendicolari, sui vuoti dei vani a giorno e sui pieni delle ante sporgenti, sugli angoli svuotati che esprimono leggerezza e dinamismo.

Compact in the smallest dimensions, sleek when longer, in both cases light, balanced, and democratic. The best market value in the intentions of the project and in the final expression, in the exclusivity of being handmade, in the choice of materials and in the craftsmanship of the details. A customizable composition, starting from a monoblock that plays on the rhythm of matching and perpendicular tops, on the voids of open compartments and the solids of protruding doors, on the emptied corners that express lightness and dynamism.
