

INC18 _REV10

CEADESIGN STUDIO

AISI 304 STAINLESS STEEL

Corpo incasso obbligatorio per soffioni

Mandatory built-in part for shower heads

LED CONTROL UNIT
(ART. CODE ELC01)

MAX. 10000 mm (10 m)
(max. 32' - 9 45/64 inches)

Il cavo elettrico Ø6 mm è compreso con il soffione doccia / The electrical cable Ø6 mm is included with shower head

PRODOTTI CORRELATI / RELATED PRODUCTS

BOT01 - ELC01 - FRE160 - FRE162 - FRE164 - FRE190

AVVERTENZE TECNICHE

Risciacquare bene le tubazioni prima del montaggio ed evitare sbalzi di pressione. In caso di pressioni statiche superiori a 5 bar si raccomanda l'installazione di un riduttore di pressione per evitare danni al soffione. Evitare strozzature al flessibile e predisporre una canalina idonea per il passaggio del cavo elettrico.

TECHNICAL WARNINGS

The pipes have to be rinsed thoroughly before installation to avoid pressure differences. In case of static pressure above of 5 bar pressure, it is suggested to install a pressure reducer to avoid and damage to the showerhead. Avoid the hose throttled and prearrange a raceway for the electric cable.

TECHNISCHE WARNUNG

Spülen Sie die Leitungen vor dem Einbau und verhindern Sie Wasserdruckwechsel. Wenn Wasserdruck größer als 5 bar ist, empfiehlt man die Installation eines Druckminderers, um Beschädigung der Kopfbrause zu verhindern. Verhindern Sie Einschnürungen des Schlauches und bereiten Sie einen geeigneten Kanal für Durchlass des Kabels vor.

ADVERTENCIA TÉCNICA

Purgar bien las tuberías antes de la instalación y evitar cambios bruscos de presión. En caso de presiones estáticas superiores a 5BAR se aconseja la instalación de un reductor de presión para evitar daños al rociador. Evitar el estrangulamiento del flexo y predisponer un conducto idoneo para el alojamiento del cable eléctrico.

ADVERTISSEMENTS TECHNIQUES

Rincer les tuyaux avant l'installation. Eviter grandes différences de pression. Dans le cas de pression statique supérieure à 5 bar, on recommande l'installation d'un détendeur de pression afin de ne pas endommager la pomme de douche. Évitez les étranglements au flexible et préparez une conduite appropriée pour contenir le câble électrique.

TEMPERATURA DI ESERCIZIO / WORKING TEMPERATURE

🌡️ max. 70 °C
🌡️ max. 158 °F
