Yoku Spa unisce sauna, bagno turco e una grande doccia centrale in una soluzione unica. Tutte le funzioni di un centro benessere completo, una vera Spa personale che vuole restituire l'esperienza originale e autentica di queste antiche pratiche dedicate al benessere della persona. Tre diverse soluzioni estetiche declinabili in tre diverse essenze di legno e due tipologie di Gres, rendono il progetto aperto a qualsiasi proposta progettuale.

Yoku Spa combines a sauna, Turkish bath and a generous central shower in a single product, your own personal spa with all the functions of a professional spa, so you can relive these ancient wellbeing practices. Three different designs available in three different types of wood and two kinds of grès porcelain mean the spa meets all aesthetic needs.
